

Consolidated Public Water Supply District No. 1 **Update**

Tank Inspections

Consolidated Public Water Supply District No. 1 was awarded a grant from the Mo. Department of Natural Resources for partial funding of Engineering Services for an update to the Master Plan. One component of the Master Plan Update involved tank inspections for three District water tanks. The Bethel, Route VV and Koch tanks were examined by underwater inspection (SCUBA) to determine the interior condition. Underwater inspections alleviated the necessity of the tank being taken out of service or drained. Preliminary results of these inspections indicated the Route VV and Bethel towers to be in good condition with minimal repairs needed while the Koch tower is in need of some repairs and will be slated for replacement in the near future. Final reports and recommendations will be received in the coming months.

Volume #8 – Fall, 2012

Thank You, Jane Sapp!

The District extends deepest thanks to Jane Sapp, Director Sub-District III, for her 25 years of selfless service to patrons of Consolidated Public Water Supply District No. 1 following her recent resignation from the board. Jane's service to the board was influenced by the valuable perspective she gained from prior work in a Water District office. Her tenure on the District Board spanned years of growth requiring great vision to ensure system and technology upgrades were implemented to keep pace with our customer's ever-changing needs for an adequate supply of quality water. Thank you for your commitment to the District and its patrons. We wish you the best!

The District will be closed on the following dates:

2012

December 24th – Christmas Eve

December 25th – Christmas

2013

January 1st - New Years Day

January 21st - MLK Day

February 18th - Presidents Day

Akeman Bridge Road Update

As reported in the Spring Update, the District is upgrading the waterline along Akeman Bridge Road. We are happy to report the project is nearing completion and, as promised, the project provides redundancy for a more reliable water supply and increased fire flow protection. An added benefit of the project will be seen during 2013 when customers should experience minimal service interruptions during scheduled maintenance to the Route VV water tower. Thank you for your patience and cooperation during this project as we work to improve your service.

As winter approaches and the mercury dips remember to leave the freezing to the snowmen by winterizing your home and by removing hoses from outdoor faucets.

Welcome, Jacki!

Jacki Swank recently joined the District Staff as Assistant Business Office Manager. Jacki has a Bachelor's Degree in Business Administration from Columbia College and brings a wealth of financial and customer service experience to this

position. In addition to duties in the Billing Office, Jacki will assist the General Manager with special projects and is currently administering grant funds awarded from the Mo. Department of Natural Resources for the Engineering Services Master Plan Update. An additional project underway is preparation of a grant application for submission to Mo. Department of Natural Resources for funding to assist the District in the implementation and operation of a Source Water Protection Plan. A life-long Columbia resident, Jacki lends her time unselfishly as a volunteer to a multitude of community organizations including Honor Flight where she assists as needed and serves as secretary to the board. We are pleased to add her to our team!

As A Friendly Reminder...

The District billing office wants to remind you that **all monthly water bill payments must be received in the District office on or by the 15th of every month to avoid a late payment penalty.** In addition, please include the bar coded portion of the billing card with your payment. For those utilizing a financial institution online bill pay service please double check the payee information prior to payment remittance to ensure proper delivery.
